During this workshop, you'll:

1. Create a free blog in Wordpress.
2. Make it your own -- with colors, fonts, and blog design templates -- customizing for your own fun blog!
3. Upload and play with widgets.
4. Get used to the "dashboard" (Wordpress upload interface).
5. Learn what blogging's all about and link to others.
6. Start blogging.

**Who should take this workshop:**

Learn 2 Blog is for beginners. If you've been wanting to set up a small business blog, a family blog, an opinion blog -- or any blog -- but haven't known how, this is your first step. Together, we'll take the mystery out of it.

Also, you'll need **basic knowledge of computers**. If you're comfortable sending emails, can work in Microsoft Word or similar word processing programs, then you are ready for this workshop.
